Rezin Orthopedics and Sports Medicine Raises Money for the Local United Way.

September 30, 2008 – Rezin Orthopedics and Sports Medicine held its 5th Annual Orthopedic Open at the Nettle Creek Country Club on Friday, September 26th, 2008. The proceeds from this event were donated to the United Way of Grundy County.

Abby Berry, Director of Marketing, had this to say regarding the outing, “Our open is designed to celebrate our total joint patients getting ‘Back in the Swing of Things’. Over the years Rezin Orthopedics and Sports Medicine has assisted more than 2,000 patients in returning to an active lifestyle after total joint surgery. For the majority of these patients, the surgery has changed their lives and made them a physically more active person. So it’s great to see them in action in a round of golf.”

This year the Rezin Orthopedic Golf Outing had record numbers with over 80 golfers and over 150 for dinner afterwards. “It’s a fantastic feeling to throw this event for our patients, while helping the local community,” Abby Berry stated.

During dinner, the physicians of Rezin Orthopedics and Sports Medicine presented a check to Mike Carey, President of the Board of Directors of the Grundy County United Way. The golf outing was able to raise \$3000 towards the annual campaign for the Grundy County United Way.
